

"There are a lot of broadcasters out there, but I've never heard anyone do what Steve Deace does. His show is a listener magnet. So many shows totally ignore or sidestep the worldview of faith when it comes to what's happening today, but Steve has shown those days are over and the massive listening audience we had for his show agreed. He's an artist when it comes to making national news sound local."

Each day Steve Deace promises to *Fear God, tell the truth, and make money.* His willingness to seek the truth first makes him a breath of fresh air in an industry dominated by political partisans. Given that most Americans are skeptical of the mainstream media and both political parties, not to mention the rise of the anti-establishment Tea Party, Deace's truth-centered approach to talk radio builds credibility with his audience, and his entertaining style will make him the most-listened-to show not only by your listeners, but his peers as well.
